

## Felt roof seal for posts

Solin d'étanchéité pour potelet

Sellante para postes

Abdichtung für Stütze

Code N° IDF011 / IDF012

# FALLPROTEC

January 2018

## Description

The felt roof seal is slipped onto the shaft of the Securope post. The roofer can then glue the bitumen on the flat EPDM surface. A hose clamp seals between the felt roof seal and the tube.

## Advantages

- Facilitates the achievement of a lift on the waterproof post
- Quick mounting on post

## Technical specifications

Delivered with an installer manual.

Material: EPDM

 Compliant with EN 795:2012  
C EN/TS 16415:2013  
MADE IN EU
