# Quickset glider with energy absorber

Code N° LDV255

---

---

**FALLPROTEC**

---

March 2020

---

## Description

For the vertical lifeline Securope Quickset, Fallprotec developed a new vertical glider. The glider follows the user smoothly in its movements up and down and passes easily all intermediate anchors.

## Advantages

- Integrated energy absorber
- Blocks the fall instantly
- Openable glider
- The user can connect safely at any point of the vertical lifeline
- Swivelling connector, always well-oriented

Compliant with EN 353-1:2014  
Made in EU

## Material

SS17, 4PH
